

## Appendix II - Maps of the meteorological and hydrological stations

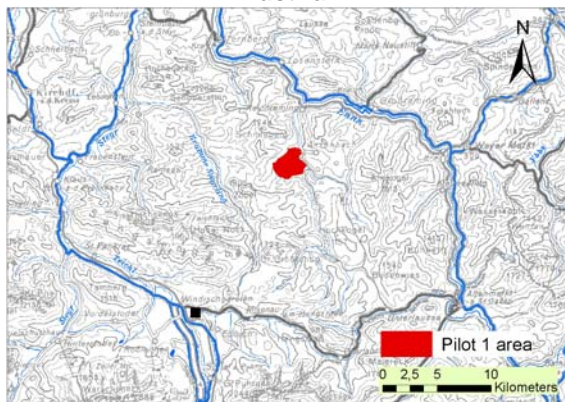

Following maps present meteorological and hydrological networks with different type of stations within the meteorological services and pilot partners in the project area.

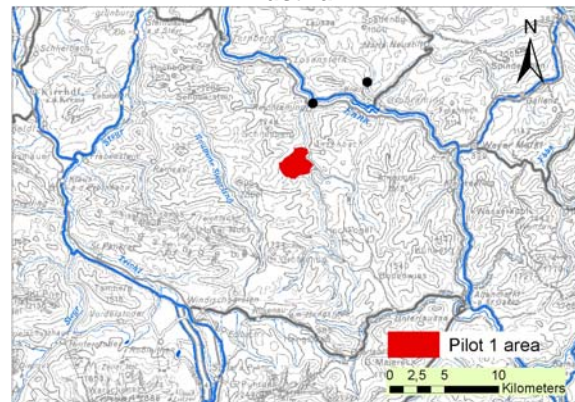

Map of integral meteorological network in Austria

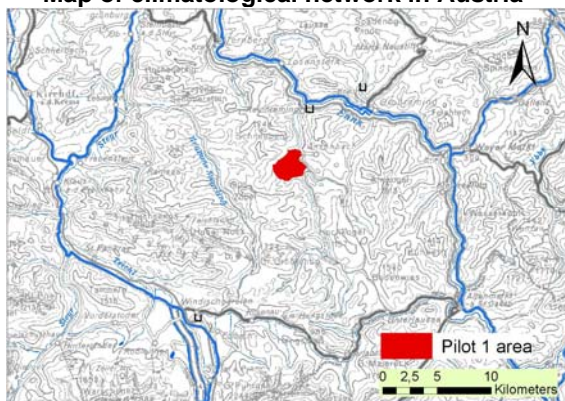

Map of main meteorological network in Austria

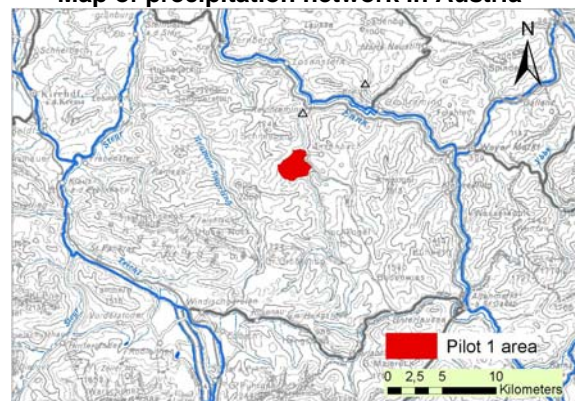

Map of climatological network in Austria

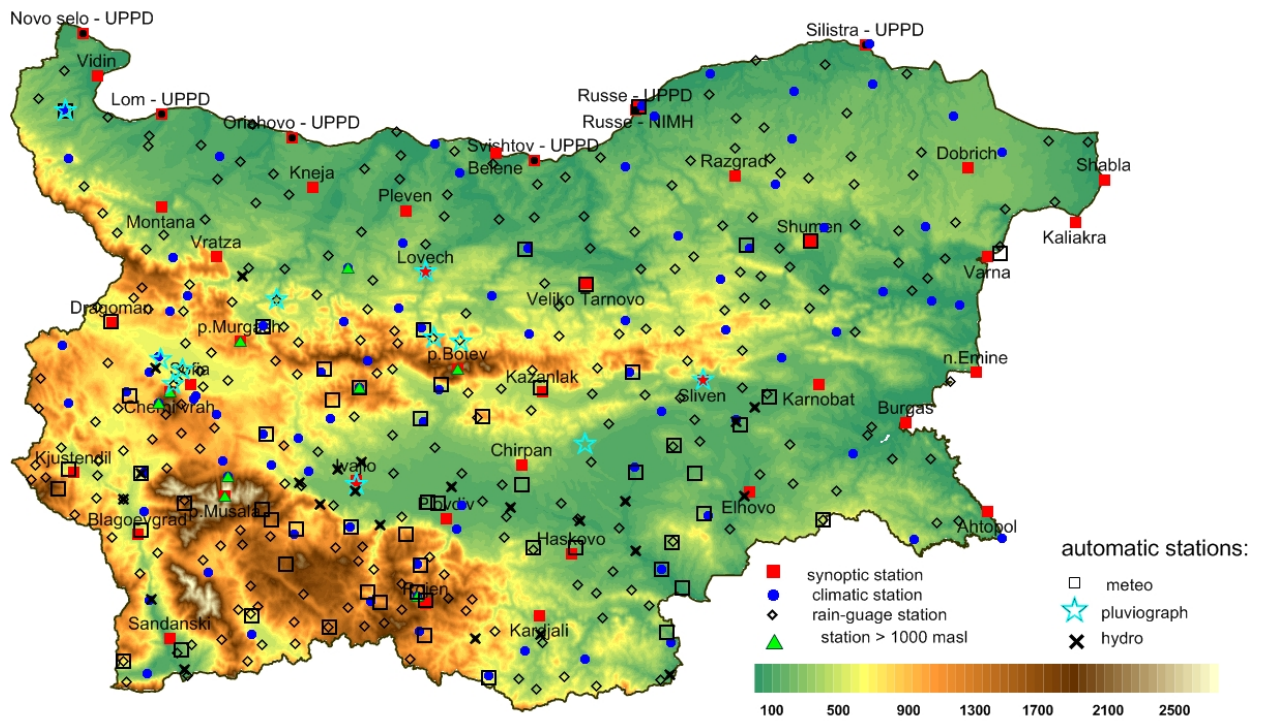

Map of precipitation network in Austria

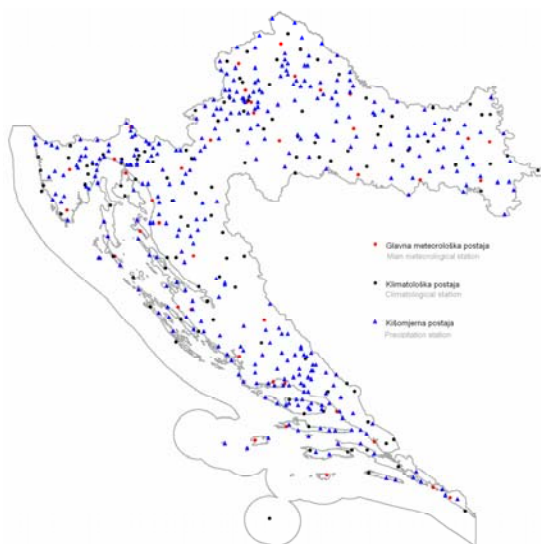

Map of automatic meteorological network in Austria

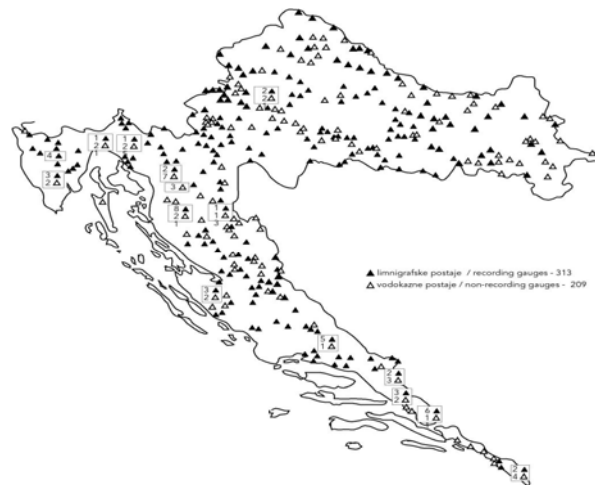

Map of hydrological network in Austria

Map of integral meteorological network in Bulgaria

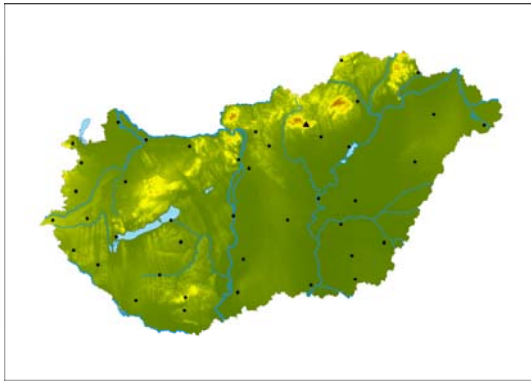

Map of meteorological network in Croatia

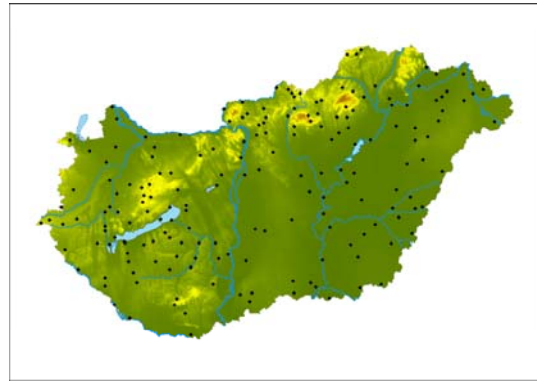

Map of hydrological network in Croatia

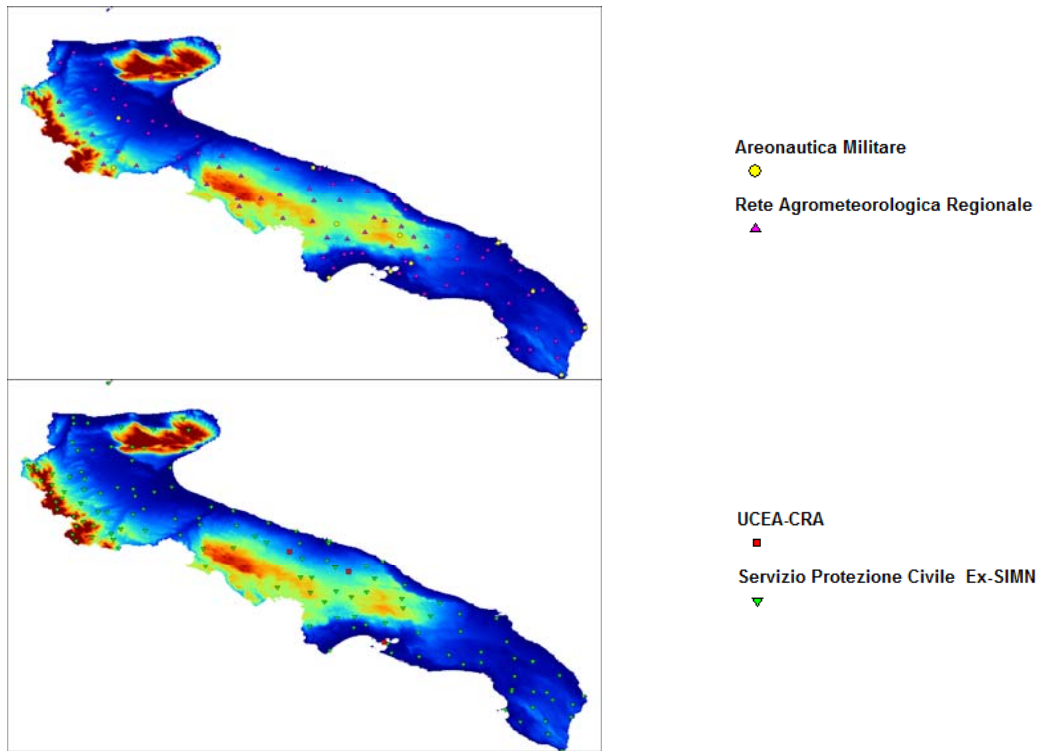

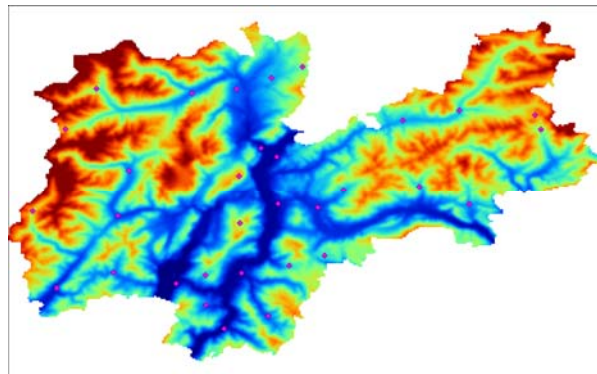

Map of climatological network in Hungary

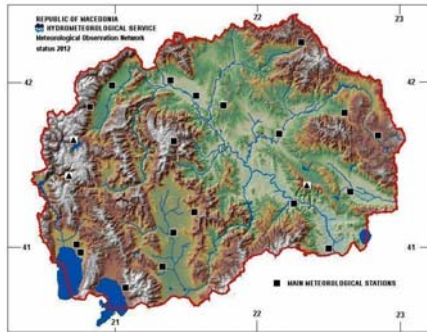

Map of precipitation network in Hungary

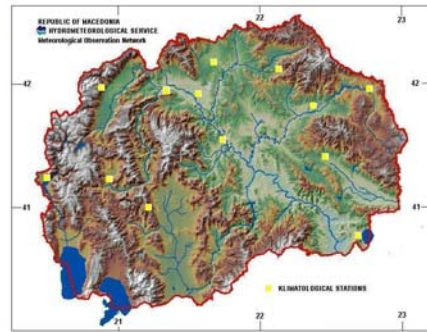

Map of meteorological network in Italy, CMCC - Puglia

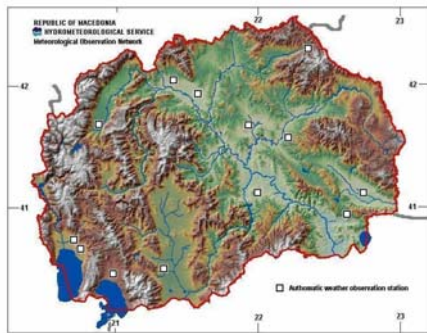

Map of meteorological network in Italy, Autonomous Province of Trento

**Map of main meteorological network in FYR Macedonia**

**Map of climatological network in FYR Macedonia**

**Map of automatic meteorological network in FYR Macedonia**

**Map of integral meteorological network in FYR Macedonia**

**Map of precipitation network in FYR Macedonia**

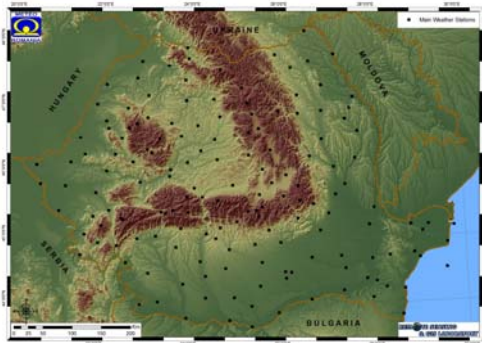

**Map of hydrological network in FYR Macedonia**

**Map of integral meteorological network in Bosnia and Herzegovina – RHMZ RS**

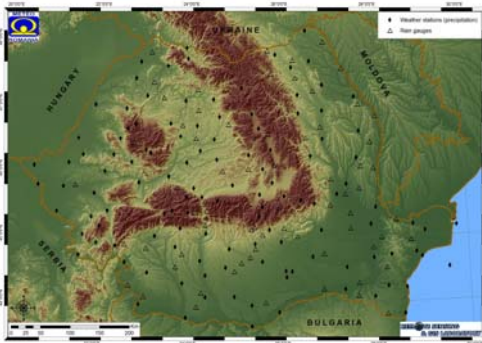

**Map of integral meteorological network in Bosnia and Herzegovina – RHMZ RS**  
red circled station have measurements without data missing.

Map of main meteorological network in Romania

Map of climatological network in Romania

Map of precipitation network in Romania

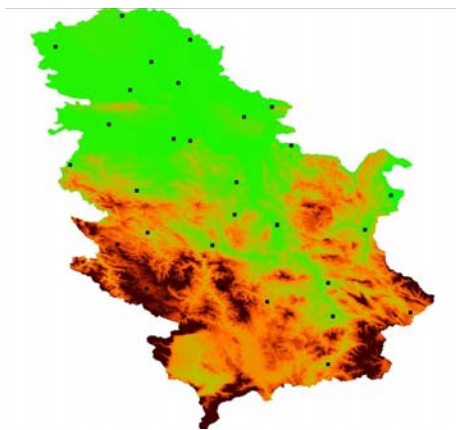

Map of mountain network in Romania

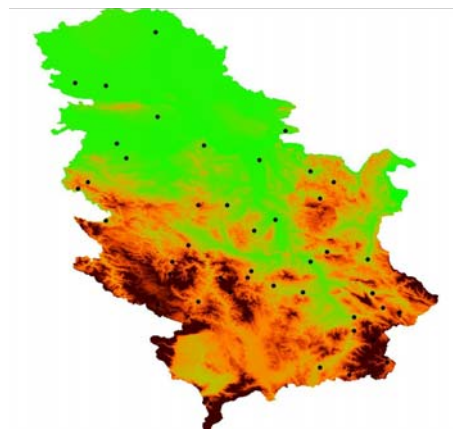

Map of automatic meteorological network in Romania

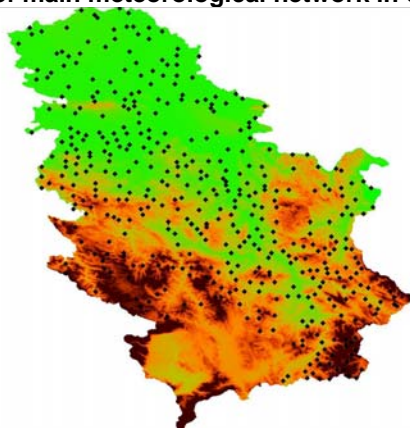

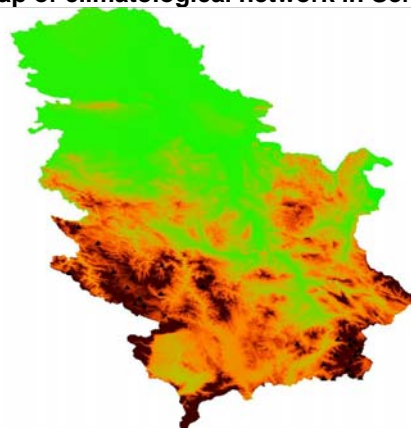

**Map of main meteorological network in Serbia**

**Map of climatological network in Serbia**

**Map of precipitation network in Serbia**

**Map of mountain network in Serbia**
